

WirelessAIR App Only, No Controller with EZ Mount

PN: 73000EZ

73000EZ Features

- + Control air springs through the free app
- + Black powder-coated steel mounting plate
- + Integrated manifold
- + Includes a removable U-bolt for an easy and drill-free attachment
- + Weather-resistant and corrosion-proof manifold
- + Dual-path control: left and right air springs are inflated/deflated separately
- + 2-way communication allows for built-in diagnostics
- + Automatic low-pressure monitor and air spring leak detection
- + Heavy-duty compressor 120 PSI, 1.03 CFM, 12V
- + Compatible with all air spring brands

Air Lift is now offering the same trusted WirelessAIR kit to customers without a handheld controller. The 73000EZ system utilizes a free smart phone app for wireless control. This new option will allow customers to order and receive WirelessAIR kits with all the same functionality and less wait time.
