## **BORGESON COLUMN DROPS**

Borgeson column drops are machined from billet aluminum. They are available in 3 different styles with either a paint-able or polished finish. The 3 styles are Solid, Open and Recessed.

Column drop length is measured *from the dash to the center* of the column

Column drops have a hinged mount to accommodate various mounting angles. Column drops are split at column hole for mounting, bolts are up through bottom. Includes two bolts and lock washers for attaching to dash.

### **Column Drops Technical:**

- All styles are available to fit 1-3/4", 2", 2-1/2" and 2-3/8" columns
- All styles are available in 3", 4", 5", 6" and 7" drop lengths
- **2" Drop length** is available in the **blank style only**
- 2-3/8" Diameter column size has cut-outs for ignition rod and wires
- All Column drops are 1/2" thick
- All Column drops are 4" wide at top with mounting holes 3-1/2" on center.
