

07-19 Chevrolet & GMC Silverado/Sierra Regular Cab Behind-the-Seat Storage

Fits DU-HA Part Numbers
10058

Installation Instructions:

- 1 Open the passenger side door. Tilt and slide the seat forward.
- 2 Behind the seat you will have a jack tools bag. Turn the wing nut on the jack tools bag counterclockwise and remove the wing nut and metal bracket. Remove the jack tools bag and set aside. *(Note: If your truck has the plastic covering over the jack handles, this must be removed to install the DU-HA.)*
- 3 Insert the DU-HA storage unit behind the seat, making sure the DU-HA lettering faces towards the front of the truck. Position the DU-HA so the bolt that held the jack tools bag in place, comes through the hole in the bottom of the DU-HA.
- 4 Place the included washer over the bolt. Then screw the 8mm Finhex nut onto the bolt. Tighten clockwise until snug. Do not over tighten.
- 5 Set the jack tools bag inside the DU-HA, if desired.
- 6 If desired, install the foam organizer/gun racks with the plastic stiffeners by bending and snapping them into the channel slots in the DU-HA. Gun racks can be installed to hold two guns or one gun depending on how you install them.

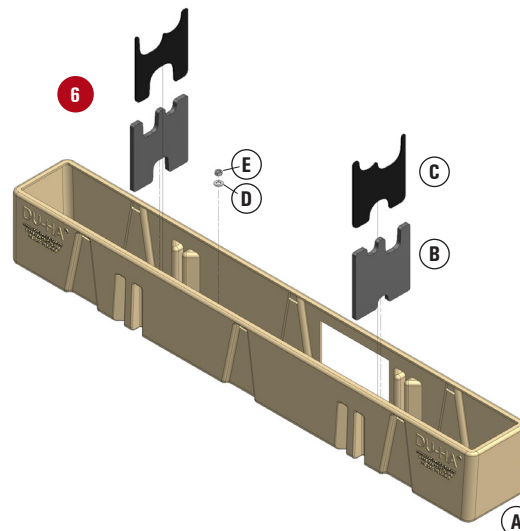

2 extra straps are included to secure guns/gear in place.

Safety Instructions:

Warning: Seat backs must be latched up at all times while vehicle is moving. Make sure the DU-HA is secured in the vehicle according to installation instructions. Do not store explosives or hazardous materials in the DU-HA. Do not place loaded guns in the DU-HA.

For further instructions refer to truck owners manual or contact DU-HA, Inc.

Part	Description	Qty
