

Description: Tail light  
Part Number: 321060-321061-321062  
Application: 2005-2007 Scion TC

---

Tools Needed:  
Flat head screw driver  
Phillip screw driver  
10 mm socket  
8mm deep socket  
8mm wrench

Step 1: Open the trunk exposing the top of the bumper to remove the two phillip screws located at either end.

Step 3: Remove the two phillip head screws from the mud guard. Repeat step for passenger side.

Step 4: Remove the plastic phillip head screw located underneath the mud guard. Repeat step for passenger side.

Step 5: Remove the plastic push pins located underneath the bumper.

Step 6: Remove the 10 mm. Repeat step for passenger side.

Step 7: Pull the side of the bumper off. Repeat step for passenger side.

Step 8: Pull the bumper straight out.

Step 9: Remove the carpet pieces to expose the back side of the tail-lights. Repeat step for passenger side.

Step 10: Unplug the wire harness from the taillight assembly.  
Repeat step for passenger side.

Step 11: Remove the two 8 mm nuts located at the bottom of the taillight assembly.  
Repeat step for the passenger side.

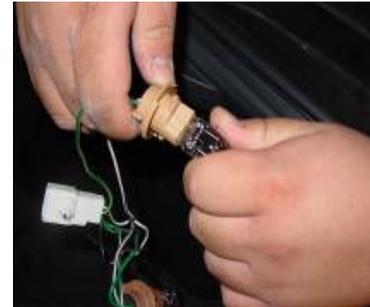

Step 12: Remove the 8 mm nut located at the top of the taillight assembly.  
Repeat step for passenger side.

Step 13: pull the taillight straight out.

Step 14: Remove the wire harness from the taillight assembly.

Step 15: Remove the two bulbs from the taillight sockets.

Note: Do not remove the bulb from the reverse light socket.

Step 16: Remove the clip located at the bottom of the stock taillight.

Step 17: Connect the clip to the ANZO LED taillight.

Step 18: Mount the resistor in a safe place where water will not get to it.

Step 19: Connect the pigtail from the taillight to the stock wire harness.  
Make sure to match the ground to ground.

Step 20: Connect the pigtail from the taillight to the stock wire harness.  
Make sure to match the ground to ground.

Step 21: slide the ANZO LED tail-light into place and check fitment.

Step 22: Ckeck all before reinstalling the bumper and the hardware.
